

We introduce you the **most innovative solutions to enhance pigs intestinal health** and increase your farm productivity.

The **widest portfolio of vaccines against ileitis** caused by *Lawsonia intracellularis*. All of them offer you a complete range of benefits that will help you mitigate the losses caused by the disease, thus **saving your farm profits**.

Porcilis® Ileitis

A ready to use injectable vaccine (IM) in a single administration of 2 mL. It offers at least 20-weeks of immunity to control ileitis. Visit <https://www.ileitis.net> for more information.

Porcilis® Lawsonia

An inactivated lyophilized injectable vaccine (IM) in a single administration of 2 mL that protects against ileitis for 21 weeks (DOI). It can be reconstituted with the Solvent for Porcilis Lawsonia or Porcilis® PCV M Hyo. Alone or mixed with Porcilis® PCV M Hyo, it can be concurrently used with Porcilis PRRS. Visit <https://www.lawsonia.net> for more information.

Porcilis® Lawsonia ID

An intradermal vaccine that protects against ileitis in a single administration of 0.2 mL. It has been developed specifically for the use with IDAL* or equivalent device. It can be reconstituted with the Solvent for Porcilis® Lawsonia ID or with Porcilis® PCV ID. Visit <https://www.lawsonia.net> for more information.

* The MSD AH multi-dose needle-free injection device for intradermal application of liquids suitable to deliver a "jet-stream" volume of vaccine (0.2ml ± 10%) through the epidermal layers of the skin.

Benefits of our

IntestiPig[®]

solutions

**Supported by published
field trials results*

Porcilis[®]

ILEITIS

The first ever
injectable vaccine

against *Lawsonia*
intracellularis.

Individual vaccination
(IM)

ensures consistent
dosing in every pig.

Easy to use

One-dose,
ready-to-use.

PORCILIS[®]

Lawsonia

The first injectable
vaccine in Europe

to control *Lawsonia
intracellularis*.

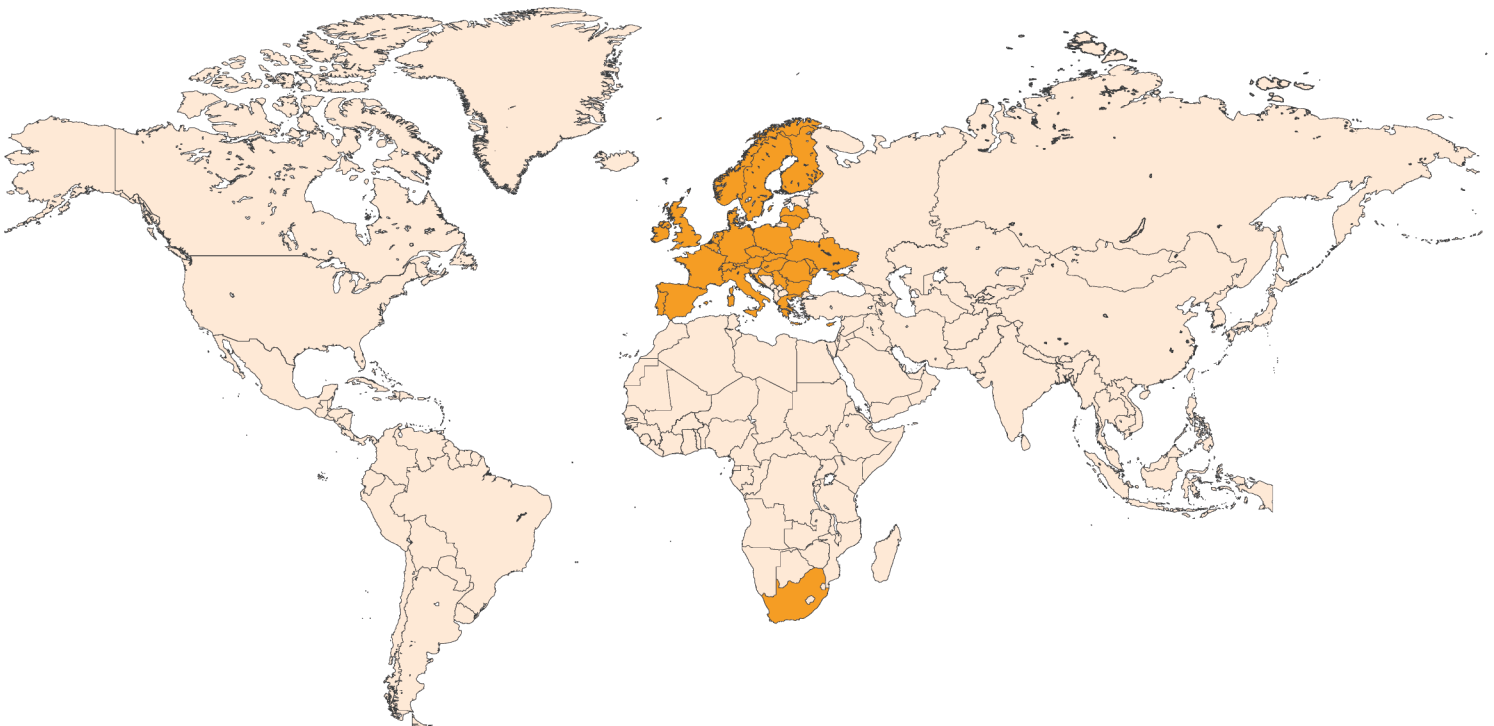

One step & go

Ready to use in a
single step.

Mixable with Porcilis[®]
PCV MHyo

and concurrent use
with Porcilis[®]
PRRS/ Porcilis[®]
Prime Pac PRRS.

The only intradermal
vaccine

against *Lawsonia
intracellularis*.

One step & go

Ready to use in a
single step (with an
IDAL® device).

Up to 3 antigens in 1
vaccination:

Porcilis® Lawsonia ID mixable
with Porcilis® PCV ID and
concurrently used with
Porcilis® M Hyo ID or
Porcilis® PRRS.
